CASE NO. 2:12-cv-00160-RSWL-FFM

**DECLARATION OF MARC E.  
MAYER IN SUPPORT OF  
OPPOSITION TO MOTIONS OF  
DOUGLAS CRANE TO DISMISS  
FOR LACK OF JURISDICTION  
AND/OR TO TRANSFER VENUE**

Date: July 17, 2012  
Time: 10:00 a.m.  
Ctm: 21, Spring Street Courthouse

1 I, Marc E. Mayer, declare as follows:  
2

3 1. I am an attorney at law duly licensed to practice law in the State of  
4 California and before this Court. I am, through my professional corporation, a  
5 partner in the law firm of Mitchell Silberberg & Knupp LLP, attorneys of record  
6 for Plaintiffs Nexon America Inc. and NEXON Korea Corporation (collectively,  
7 "Nexon"). I make this Declaration in support of Nexon's Opposition to Defendant  
8 Douglas Crane's Motions to Dismiss for Lack of Personal Jurisdiction and/or to  
9 Transfer Venue. I know all of the following of my own personal knowledge and, if  
10 called as a witness, could and would competently testify thereto.  
11

12 2. This is an action for copyright infringement, violation of the Digital  
13 Millennium Copyright Act, and related claims arising from Defendants'  
14 distribution of software products (sometimes referred to as "hacks" or "cheats")  
15 designed to alter or manipulate Nexon's online computer game, "MapleStory," on  
16 the Internet websites including [www.gamersoul.com](http://www.gamersoul.com) (also [www.gamersoul.net](http://www.gamersoul.net)),  
17 which was formerly known as [www.w8baby.com](http://www.w8baby.com) (the "GamerSoul Website").  
18

19 3. At the time this lawsuit was filed, GamerSoul was engaged in the sale  
20 and distribution of a number of hacks and cheats for MapleStory, including the  
21 "Bizzaro Trainer," "RiPE" packet editor and "RiME" memory editor. GamerSoul  
22 sold these products via links and advertisements placed on its website, or through  
23 its restricted "VIP forums." To obtain these products or access to the VIP forums,  
24 it was necessary for users to visit a payment page in which "VIP" access to the  
25 desired product can be purchased via third party payment services, such as  
26 AlertPay, PayPal, and 2Checkout.com. In the "VIP" message boards, users can  
27 discuss the use of the hacks and cheats, and obtain technical support from  
28 GamerSoul moderators and "staff." For example, attached hereto as **Exhibit A** is a

1 true and correct copy of a tutorial from the GamerSoul Website on buying Bizarro  
2 Trainer entitled, "Here are some common questions people have before they buy  
3 BT (Bizzaro Trainer)," which instructs that "[t]he best way to buy BT is through  
4 the site, you can simply click the buy BT VIP button at the top of the forum and  
5 buy BT through alert pay. This is the cheapest way of purchasing BT." During the  
6 relevant time period, payments made through AlertPay were made to the e-mail  
7 address w8babyvipftw@gmail.com.

8  
9 4. As defendant Douglas Crane has confirmed, his online handle or alias  
10 is "lonerboy." "Lonerboy" posted a large number of messages on the GamerSoul  
11 Website. Many of those messages specifically discussed Nexon, Nexon's business  
12 practices, and ways to cheat and hack MapleStory without being detected by  
13 Nexon. Attached hereto as **Exhibits B** through **H** are true and correct copies of a  
14 sampling of "lonerboy's" posts that were gathered and printed at my direction  
15 either from the GamerSoul Website or from cached pages stored by Google. These  
16 documents reflect that Crane regularly communicated with members of the  
17 GamerSoul community and actively solicited users to purchase GamerSoul hacks,  
18 including the "Bizarro Trainer" or "BT."

19  
20 5. Exhibit B is a print-out of a GamerSoul forum showing a post by  
21 lonerboy dated January 30, 2010 stating: "well... I think the point is for nexon to  
22 be able to force huge messages that you have to read now LOL, the big pitch by  
23 Nexon in other words for NX, events, etc... what does this mean for us all as far as  
24 hacks.... NOTHING, except that you wont be able to log off one player to another  
25 without restarting your hacks possibly, and there may be some degree of change in  
26 how we can or will inject things... im sure there will be a way to avoid this whole  
27 web site launch anyways with a command line or w/e and the VIP's im sure will  
28 let you know how it goes..."

6. Exhibit C is a print-out of a GamerSoul forum showing a post by lonerboy dated September 15, 2010 stating in part: “although [sic] Nexon would never admit to it, the fact is they make a shyt [sic] load of money from sites like [W8Baby/GamerSoul] by selling [Nexon dollars], not to mention that without hacks of somesort [sic] they would loose [sic] about 1 million players who find the fun of the game is actually [sic] attempting to find glitches, exploits, etc...” Lonerboy posted another post later that day, stating that “the more [Nexon] patch[es MapleStory], the more valueable[sic] BT [Bizarro Trainer] becomes. . . .”

7. Exhibit D is a print-out of a GamerSoul forum showing a post by lonerboy dated September 20, 2010 stating in part, in response to a question as to why the site does not have a private server section: “because there are certain things that the admins of this site feel are just ‘off limits’ here because its infringing to point that they believe is wrong . . . . you may say well hacking/coding/botting talk is in the same category but the fact is...[MapleStory] is a free game and most these things no[sic] not hurt Nexon’s income. . . .”

8. Exhibit E is a print-out of a GamerSoul forum entitled “199K Damage Hack gonna be gone soon!,” showing a post by lonerboy dated October 26, 2010 stating in part: “HINT: now would be a very good and smart time to make SURE you are one of the people who maintain an active BT license (and that’s all ima say about that).”

9. Exhibit F is a print-out of a GamerSoul forum entitled showing a post by lonerboy dated March 2, 2011, stating: “fukkkkkkkkkk... juts [sic] got permed [permanently banned from playing MapleStory] in scania =\ watch out [Nexon is] onto us =\.”

10. Exhibit G is a print-out of a GamerSoul forum entitled “WTF Nexon” showing a post by lonerboy dated April 29, 2011, stating: “Buy BT and goo fuk [Nexon] up bro!”

11. The posts further show that Crane himself was an active user of the Bizarro Trainer software, which he apparently used to operate multiple MapleStory accounts simultaneously and unfairly acquire in-game items for later sale. Exhibit H, for example, is a print-out of a GamerSoul forum entitled “anyone else notice CPU usage fixed by Nexon :P” showing a post by lonerboy dated March 16, 2011, stating in part: “now got 8 going... OMFG this is like a Dream... i need a lice[nse] for my other computers NOWWWWWW!! :P time to make Bank!”

12. When a user wished to purchase products such as the Bizarro Trainer, the user would make a payment (using third party payment service AlertPay) to an account maintained by Crane. Attached hereto as **Exhibit I** is a true and correct copy of Nexon’s Notice of Third Party Subpoena to AlertPay, and the relevant pages of AlertPay’s response. Nexon’s Subpoena sought, *inter alia*, the production of documents sufficient to identify the individuals and/or entities who have at any time held, owned, administered, transferred money from, or withdrawn money from the AlertPay accounts for w8baby.com and gamersoul.net. In response, AlertPay identified Doug Crane as the administrator of w8baby.com and gamersoul.net, using the e-mail addresses w8babyvipftw@gmail.com and gamersoulVIP@live.com. Crane’s date of birth has been redacted.

13. Attached hereto as **Exhibit J** is a true and correct copy of the AlertPay records that Crane’s attorney sent me, converted into Excel format. These records were provided to me shortly after our complaint was served, subject

1 to an agreement that the contents be maintained as “confidential.” (Thus, they are  
2 being filed under seal). The data was produced as a text file entitled  
3 “APaccounttotal.csv,” where “csv” means that the file format is “comma separated  
4 values.” Such files are basically unformatted databases that can be opened in  
5 spreadsheet programs such as Excel, but the columns need to be formatted for the  
6 fields in them to be fully legible. The file was opened in Excel, and without  
7 altering the data in any way, was formatted for maximum readability.

8  
9 14. Exhibit J shows that in the period from September 2010 to January 31,  
10 2012, Crane completed at least 3,500 transactions with GamerSoul users using  
11 payment processor AlertPay. In connection with these transactions, Crane  
12 collected significant sums (counting just those entries showing payment “Received  
13 From” in the “Type” column and “Completed” in the “State” column). As Exhibit  
14 J shows, Crane transmitted some of the revenue to other owners and operators of  
15 the website and kept a portion of the revenue for himself. For example, many of  
16 the transactions are labeled “Payment Received From,” while others are labeled  
17 “Transfer Sent To.” Transactions labeled “Withdrawal” reflect sums being taken  
18 from the AlertPay account and paid to Crane.

19  
20 15. Attached hereto as **Exhibit K** is a true and correct copy of a  
21 spreadsheet prepared by my office showing the entries from Exhibit J for sales  
22 made to California residents. Exhibit K is a subset of Exhibit J. As Exhibit K  
23 reflects, of the total transactions reported by Crane and AlertPay, more than 350—  
24 approximately 10%—were with customers in California (who self-identified as  
25 being in California).

26  
27 16. Many of the transactions identified in Exhibit K (more than 50%) do  
28 not contain complete address information. If those with no address information are

1 excluded, then the total percentage of California transactions rises to nearly 25%.  
2 Thus, using basic extrapolation, it is a fair assumption that Crane completed at  
3 least 800 transactions (25% of 3,500 transactions) with California customers in the  
4 18 months preceding this lawsuit.

5  
6 17. If the transactions with no address information are excluded, 25% of  
7 the money Crane collected during this period came from California.

8  
9 18. Attached hereto as **Exhibit L** is a true and correct copy of an e-mail  
10 that I received from Crane on February 22, 2012, acknowledging that he played  
11 Nexon's game.

12  
13 I declare under penalty of perjury under the laws of the United States of  
14 America that the foregoing is true and correct.

15  
16 Executed on this 26th day of June 2012 at Los Angeles, California.

[MUST READ!!] Pre Buying BT FAQ's

### Here are some common questions people have before they buy BT (Bizarro Trainer)

'How do I buy BT?'

Option A. (Recommended)

The best way to buy BT is through the site, you can simply click the buy BT VIP button at the top of the forum and buy BT through alert pay. This is the cheapest way of purchasing BT

Option B.

You can buy through [www.w8vip.com](http://www.w8vip.com) for NX or Meso. This is a official site and can be trusted

You can also buy licenses and a 1 week license for trial through [support@http://www.w8bab...by.com](mailto:support@http://www.w8bab...by.com), this person is almost always on MSN!

He sells from a different system so remember to give him your forum ID so he can give you VIP forum access after you pay him.

Option C.

Through Official BT Resellers, they accept NX/ Meso/ Paypal and other forms of payment.

They can be found in the BT Reseller section,

<http://www.gamersoul.net/forums/forumdisplay.php?154-BT-Resellers-Distributors>

Difference between BT packages/licenses:

BT Baby will let you bot on single Maple at the same time

BT Super will let you bot on 6 Maples at the same time

BT King will let you bot on 20 Maples at the same time

Features enjoyed by all three packages:

All packages have Multi-Ms buildin bypass that allows open unlimited amount of maple to use

All packages have all the botting/hacking function inside BT and other VIP tools.

All packages comes with minimum of 5 weeks+ private VIP sections & 24/7 support and various tools

'Why can I only see a 1 month option?

New BT users can only select a 1 month option for any license, once you have purchased your first license then you have the option for 2 month and 100 day licenses which are better value.

'What happens after I buy?' (If bought by Option A or C)

Once you have bought BT you will be messaged by the system, it will look like this:

<http://img41.imageshack.us/img41/9584/65921130.png>

More importantly though you will be given INSTANT access to the BT Forum section, here you can look around at the guides and check out the support and plug in release section. This is what the BT forum section looks like,

<http://img714.imageshack.us/img714/5421/btsection.png>

'How long will it take till I can start hacking?'

Within 24 hours of your BT purchase your license will be available for you, I have found it is generally a lot quicker then that though. You can access your license info by clicking 'VIP Info' tab on top of the forums. It is in yellow as shown below,

<http://img199.imageshack.us/img199/5339/vipinfo.png>

'How will I get BT?'

The latest BT will always be in the VIP section for you to download!

'Is it worth it?'

BT is definitely worth it, the money and levels can make is really quite amazing. Check out some of these videos on BT and its features

<http://www.youtube.com/watch?feature...&v=W7SKQCmPabY>

[http://www.youtube.com/watch?feature=player\\_embedded&v=hvrnllbw7RA](http://www.youtube.com/watch?feature=player_embedded&v=hvrnllbw7RA)

'How can I get help/support with it?'

Firstly, there are plenty of guides and videos available to help you set up your BT. Secondly the best part is if you do run into trouble you can always just post a thread and always get a answer within 30minutes max. In the chat box there is generally always members willing to help out via MSN or Team viewer.

'Are there guides/tutorials?'

Yes! There is plenty of guides in the BT section including guides on how to set up hack features and most importantly plenty of videos!

'What's the trainer look like?'

The trainer currently looks like this,  
<http://img98.imageshack.us/img98/1576/btgui.png>

'When does my BT license time start?'

Your BT license time starts when you launch MapleStory from BT for the first time. Once the time starts, you cannot stop it and it will continue to run down until there is no time left.

'What happens during BT downtime after a patch or server maintenance?'

After any type of patch, whether it be a normal patch or a mini-patch, BT will stop working and will need to be updated. BT will always work after a server maintenance if there is no mini-patch. During the downtime while you wait for BT, your license time will not be paused.

'Are license extensions given out for downtime?'

License extensions are completely up to Bizarro. If he feels the need to extend licenses for any reason then he will hand them out. You should not expect extensions to be given for everytime BT has to be updated. Raging and demanding for extensions will not help you.

upon purchasing BT you are given an extra 10 days BT forum time (you may request a 1 time extension if you did NOT use your lic. yet, but you cannot buy a BT lic and never use it and expect to in BT forums sections indefinitely!

Im curious as to what exactly is happening. Is the game becomming basically a browser game i.e. dont even need to download it anymore? so for example i could play the game on any pc by simply gong to the website?

or Is it basically you need the client and it just runs through the website?

**Orpheus**

01-30-2010, 08:49 PM

Basically you just boot the game up from the website...It's liek the start button will be on the site in stead of the little desktop start button.

**EvilJaz**

01-30-2010, 09:02 PM

I see so whats the point of it lol

**SXGuy**

01-30-2010, 09:34 PM

another game uses this method already, Ghost Online.

Its easy to quick launch the game though, all you need to do is find what params are sent from the webpage to the client, and mimic it.

Quick i.e shortcut with extra params would work.

Or using IE functions inside a program to do it for you.

**lonerboy**

01-30-2010, 09:46 PM

well... i think the point is for **nexon** to be able to force huge messages that you have to read now LOL, the big sales pitch by **Nexon** in other words for NX, events, etc...

what does this mean for us all as far as hacks.... NOTHING, except that you wont be able to log off one player to another without restarting your hacks possibly, and there may be some degree of change in how we can or will inject things... im sure there will be a way to aviod this whole web site launch anyways with a command line or w/e and the VIP's im sure will let you know how it goes...

Lol :D well it does seem like a pointless thing for them to do

**bagnag**

01-30-2010, 10:03 PM

Combat Arms, another **nexon** fps game, has this already in.  
They have a .exe that opens the browser, and then in the folder, they have a Combat Arms Direct.exe that also starts the game the old way, so it will not effect multi MS's

**Captain**

01-30-2010, 11:57 PM

Auto-inject will be needed in the future I'm guessing?

**Litesung**

01-31-2010, 12:54 AM

I think they should have an option, just like bagnag said.

Option1: Log in from website...

Option2: Log on old fashion way...

And you choose by launching whatever .exe file.

Personally, this feels like they are downgrading the game's maturity.

**SXGuy**

theres probably going to be a start button on the website so you just click start and sham wow

Just a curiosity, but what is stopping **Nexon** from purchasing BT, and dissecting it?

**XTCHouseMafia** 09-14-2010, 08:45 PM

Alertpay!

lol j/k... But yeah seriously I wouldn't worry about it. Widespread hacks aka public hacks are what get patched! Keeping it paid for and private is what keeps our hacks around for a very long time!

**Armadda** 09-14-2010, 08:50 PM

I doubt they are really worrying about BT users since it keeps you so well hidden from legits, They only patch things that fuck up the economy/NX and thereby angering legits, or when all maps are full with non ccing hackers and its angering legits, and to kill meso farmers

**Cataclysmic** 09-14-2010, 08:58 PM

I suppose nothing is stopping them, but I doubt you will see a Mod or Admin post here. I suppose BT is protected well enough to keep it from being unpacked, although Waffle has already stated to have done this.

I suppose I won't comment to much on that due to W8baby and Waffle's disagreement, but Waffle has helped me a lot.

**Bizarro** 09-14-2010, 09:24 PM

unpacking has nothing to do with cracking BT. the auth is entirely based on .net encryption with all server sided checks.

anyone who tells u they unpacked and cracked BT is a troll and seeking attention.

+1 one for Andrew.

Andrew thinks outside the box and thinks of ways to protect his shit like you don't even know. They can't just unpack it and be like oo hey heres vac 2.0. Don't believe people so easily on what they claim to do. Lotta wanna bees out there .

Yeah, because none of us break the ToS either do we? **Nexon** would seriously ROFL if you expect them to take that serious...Hell even the Judges in a court would ROFL if they seen this.

I /facepalm to whoever wrote that in the ToS.

True, but doesn't he sell it other places or you can even MSN him pay him then get it? Plus, you broke Nexons ToS first, **Nexon** would be breaking the ToS to protect them selves. **Nexon** would be able afford some of the best Lawyers and no matter what they would win, unless someone here is making more then **Nexon** which obviously not happening. Though, **Nexon** obviously doesn't care about any of this anyways.

I doubt the terms of service means anything. Private servers have terms of service that whoever enters the site cannot be affiliated with **Nexon** and whatever. A huge corporation like **Nexon** takes those ToS as a joke.

**Nexon** is rich. Why do they care about a few smarter ppl who "cheat". **Nexon** doesn't cares. At the end of the day, hackers get te levels/meso, w8 gets money and **Nexon** gets a shetload of money. Its a triple-win situation. So i wonder why **Nexon** even cares about updating hacks. Hacks don't hurt their profit do they? Maybe a few legit quit, but they will still get a shetload right?

From what I was reading, the methods of BT's DupeX and GK's DupeX are completely different, one fails and one doesent, guess which.

I know they don't care, it says that at the end of my post. o.o

They do care about Private Servers and Exploits...I've been around hacks since around v2x and I it seems now they finally hit the stage of "Don't care" when it comes to hacks like when they use to actually patch Bypasses all the damn time and even just normal "bot" programs that didn't even have hacks on them. Though I expect them patch BP sometime soon because of the abusing on Horntail.

Some of us buy NX to buy pets to use Pet Item vac to hack using Vip/BT? :D Some of us also buy 2x cards to speed up leveling and such beyond with hacks? :O We buy NX to hack better.

**Polomaka**

09-15-2010, 12:58 AM

I don't think on a 1vs1 that a HACKING's site ToS would win against such a company like **nexon**.. or to be honest, any company.

**lonerboy**

09-15-2010, 05:41 AM

although **Nexon** would never admit to it, the fact is they make a shyt load of money from sites like this by selling NX, not to mention the fact that without hacks of somesort they would loose about 1 million players who find the fun of the

game is actually attempting to find glitches, exploits, etc... the problem they had were back when hacks were all public and it was a free show game with 70% hackers. If they took away the ability for BT or all these many different forum VIP's then things would just be public again and that would create issues and they would have to rethink their use of hackshield and recode the entire game, I don't know if they really even understand how much they make in NX sales because of sites just like this one.... but its alot! they are truly the ones who see the largest benefit from all the maple related sites around the world..... because at the end of the day..... it ALLLLLLL goes to them by more people playing the game and more people buying NX....

**Cataclysmic**

09-15-2010, 06:19 AM

Haha, must have misread~ Although I'm certain the methods of vaccing mobs are different, they made it look like a cloned version. With traditional fast dupex mobs don't freeze, same with slow dupex. From what I've gathered (Due to the creation of slow dupex) the speed at which the mobs are vacced affects auto ban, hence slow dupex to avoid bans. The GKs made the mobs freeze which like bizarro's dupex improves efficiency and decreases the chance of auto ban due to vaccing too fast. Or at least so it goes from various reading/lurking/sneaking into bizarro's comp at night and stealing his hard drive. (If that actually happened it wasn't me, I swear D:)

Yea, I found a conversation between Blaze and Henly on pastebin. Pastebin search ftw.

Very true, I definitely think their number one concern is money, which comes from NX. They never used to be this way. I remember a time when there was no cash shop! But they're growing hungrier and hungrier for money every day cuz they know it's extremely easy money. Games like maplestory (essentially "free" games) are getting like 100x the money from games like WoW that requires a monthly subscription and nothing else. It's getting to the point where if you don't buy loads of NX, you really have an unfair advantage in the game. They're sorta forcing you without forcing you, like with the DB skill scrolls. It's starting to sicken me, but hey what can you do....

This on only your opinion because you have your hand in the bag of chips.

Seriously, I'm so sick of you talking about stuff like this.

You're seriously trying to say that because BP got patched, that now the trainer is more valuable? You sir, are nuts.

This is a business transaction on my end, if I'm not making something from the trainer, It doesn't make sense to buy it.

I wont be buying it after this subscription ends if something epic isn't released.

BP was a wonderful hack, that i enjoyed since V85 and wished it was kept private. Its been a public hack for a couple of months, a hack like this we should be grateful even stayed around this long. Well you have to remember that Bizarro is one of the best Maplestory hackers right now, as well as one of the oldest i am sure he has many things to come. So give it a few days until the update.

"See, you think I give a shit. Wrong. In fact, while you talk, I'm thinking; How can I give less of shit? That's why I look interested."

You agreed to "<http://www.w8baby.com/TOS.html>". Take a look and drop your jaws. "I don't wanna sit around watching you 'give it your best.' Either stop sucking or get the \*\*\*\* out of the way."

You don't make any sense. If I were **lonerboy**, I would have sent a prorated refund and refused service to you , put a ban on your forum account. And give a suggestion of other hacking sites that he can get that are 100x more useless.

Here is what I see:

If you don't do this, then I will do this. <-a threat

Doesn't seem to be loyal, you don't trust the site to produce quality hacks. You think it is all over. You think since some BT hacks got patched, BT got owned. Bizzaro can't control if **Nexon** patches them. Nor can any other alternative crap site.

How did you say this:

If you don't give us better hacks, I will not buy again. This is due to the fact I need more money for PMS pads.

That right there is not a trusted member.

Why cant w8 have a Private server section?  
Im just wondering why?

lonerboy

09-20-2010, 11:03 AM

because there are certain things that the admins of this site feel are just "off limits" here because its infringing to point that they believe is wrong.... NX hacking, Private Servers, etc are just not allowed. you may say well hacking/coding/botting talk is in the same category but the fact is.... its a free game and most these things no not hurt Nexon's income (but rather help it, even if they wont admit it)... botting is something that can be done with a pro gaming mouse bought from bestbuy, etc. but Private Servers are 100% unquestionably infringing and potentially could harm their income, NX would be in this same category. Not that I know anything because Im just a NIB but I think these are the reasons why....

what DJ said. Nexon would crack down on w8baby if we had private servers. Like 29084984984 times more. And this has been answered a lot before I think. Grats on getting unbanned for scamming for the 3rd time. Fail.

A simple answer is that Nexon can use DMCA to bring down w8 if private servers/attachments are available on this site. This is what happened to the legendary CEF last year.

I dont even know what everyone is flipping out about. BT is only ttrainer that has the hack even. The only chance of it getting patched if some gk self righteous jealous noobs send the shit to **nexon** saying "omg gk doesnt have this patch

it"  
Bp lasted months and that was spread all over the hacking community.  
Besides noones exploiting this as much as expected.  
Chill out. Game Update is most likely involving the Halloween event..

**Tctwins**

**XxBrandonxX**

10-26-2010, 12:22 AM

no because the halloween event is set to end on the november 3rd patch.

If your going to argue with someone with a great argument get your grammar right please.  
I doubt its going to be patched, its been out for just days, and **nexon** is pretty slow and lazy.  
If it gets patched aww well, it was fun while it lasted. But ilke stated previously in pretty much every thread so far, by people with common sense, BP was very popular, enough so that the common mapler knew about it. Right now this hack is BARELY known in the hacking community, basically just us.  
On top of that it is bizzaro's trainer only, so everyone using public hacks don't even have it, that restricts it down to the hundreds of us that DO have it.

In nerd terms: GF YOU

Ill say again that another footnote to all this is the fact that bingbang is right around the corner (by year end at the latest they keep saying) and with it will bring the end of everything for a certain time except for the two people still active in the world who have the ability's to overcome it swiftly (Bizarro & Cam) .... HINT: now would be a very good and smart time to make SURE you are one of the people who maintain an active BT license (and thats all ima say about that).

Everyone is all about BT, but I would be way happy alone just to use Kami. Cam should put it on its own. Fix it so you don't fly out of maps and friggin raise the price of VIP.

Big bang is going be a hackers paradise or nightmare depending on what they did to the coding. But I am leaning towards paradise since nexon is half retarded when it comes to new content. There are going to be bugs galore to exploit. Either way I can't wait to see it.

It will only be a paradise after people can adapt , find, rewrite all the code (and I mean everything!) .... the ones who can read asm like a schoolboys book (IE: Cam or Bizzaro) will easily be able to rebind, redo everything.... most others will spend months doing this OR wait until Cam or Bizarro release things in order for them to try and reverse it.

Please don't say stuff like this unless you mean it. You ALWAYS say stuff like this. Yes good stuff may be coming out. But I hate how you say cough cough BT (or VIP) will close to new subscribers cough cough but it doesn't happen. It NEEDS to happen so maplestory is not screwed up by 189049084908484.5 people with godly hacks and so stuff gets patched slower. The price of BT and VIP needs to be FREAKING RAISED. It was an extremely good deal when I paid \$115 for 2 account access and I dont see why it needs to be lowered to \$55 for up to 12.

for people who dont read paragraphs:

BT and VIP should be closed to new subscribers forever then we can slowly weed out the leechers. At least BT. Because then everybody would still have a chance to get decent hacks. Although exploits should come in a VIP+ that is closed to new subs.

BT and VIP's prices are too freaking cheap.

Items in maplestory are down as low as 10% of what they used to be in the last 4 months.

Andrew is da bomb.

yup :(

Not everyone has the money to spend over \$100 a month for a game.

\$55 is already expensive for some people, if I say "I have BT" they are like "woah its so godly but so expensive".

I use bt I just didnt activate my license till 90.3 and my forum time has expired.

And when did you buy BT for \$115 ? o-o

Take It like that, maplestory godly hacks used to be \$10-20 if I understood it right (xentare and shit), but yes, I do believe they should close it for members there didn't purchase before NOT because I bought it twice, but because I think that the dmg hacks and shit are getting posted because those noobs that buy bt just go outside on hene and attack mobs so people make ss's of it, they don't bot or kill boss's with friends or alone, they go public with it. I believe andrew has to close subs for new comers but the prices should stay that way.

**Rollandrick**

10-26-2010, 11:44 AM

BT can generate a billion mesos/day. That's \$50/day for an initial \$55 investment. Of course, that's after setting up the initial accounts needed. Of course, with the damage hack I can go to ToT as early as 70/80 on my pure dex TB, which requires a prior investment of only about 20 hours on 1x.

one bt for \$60. second one for \$55.

And EXACTLY IF ITS TOO EXPENSIVE FOR MOST PEOPLE.... MOST PEOPLE WONT BUY IT. It's not for everybody to have because it's a GOOD HACK. I made more with just 1 BT 4 months ago than I do now with 15.

If your going to argue with someone with a great argument get your grammar right please.

I doubt its going to be patched, its been out for just days, and nexon is pretty slow and lazy.

If it gets patched aww well, it was fun while it lasted. But like stated previously In pretty much every thread so far, by

people with common sense, BP was very popular, enough so that the common mapler knew about it. Right now this hack is BARELY known in the hacking community, basically just us.  
On top of that it is bizzaro's trainer only, so everyone using public hacks don't even have it, that restricts it down to the hundreds of us that DO have it.

In nerd terms: GF YOU

Dude shut the hell up, I don't care how I type on this forum, if I wanted to be corrected by the grammar police I would of thought I was on basilmart forums. You jack off. I hope it doesnt get patched, but it probally will very soon. Stay positive all you want. You can even pray. But it will be patched soon. I hope not :/.

I like Big Bang. It really suits the name, ya know? It's gonna be the end of MS as we know it and a start of a new beginning. Everything will be re-written. Like the begining of the world, everything starts as nothing. There will be no hacks. But soon, one star. one sun, one 1337 coder will emerge to bring the light. Then the lil planet [wanna bee coders] will steal that light and leech and rip it over and over and over again. As more planets emerge, the sun's light will go lower and lower and morals go down and down as more planets abbsorb it. They claim they produce the little light they have. They claim they are needed, that the light is just a source. But no matter what the sun/elite coder will remain the top. If the sun falls, all the planets dié. [Guess who the sun is? :P] I probably will quit MS, but just stay on w8 to see how this goes.

I agree with what your trying to say.

ALOT of noobs are decreasing their prices to get rid of their PoT's, but that's srsly ruining the econmy, if they just wait a bit longer, those idiots would relise that they would make more money from selling them for the same as anybody else.

BT price should raise, or only allow certain pplz, to join.

Dang you do get tired of buying/selling no point in botting today since more likely a rollback.

**iLeeman**

03-02-2011, 11:11 AM

Looking for some1 to release a bot :P

**Jokic**

03-02-2011, 11:14 AM

can someone tell me where to buy the pots and sell the pots, if you dont wanna tell it here. please pm me. I will give you a reward:)

**bubbleszz**

03-02-2011, 11:16 AM

If you have a razer keyboard you can make a macro to sell and buy for you you just need to move the mouse.

Thats what I did.

I think were gonna get banned for this or maybe roll back'd :S

considering what has happened the last 24 hours, it will probably be a rollback and a few banns for the people who went serious with the potting

**selcuk** 03-02-2011, 12:07 PM

ugh not again :S... i hope we dont get rollbacked!!!

**symptoms** 03-02-2011, 12:09 PM

ugh not again :S... i hope we dont get rollbacked!!!  
people made billions with MG exploit, and the only server that got rolled back was what khani or something? Im sure if they decide to do something about it today they wont do a roll back. It makes all the legits mad either way

Was just selling pots in El Nath and got perm banned.....

I was just about to hit max meso too :-(

EDIT:

Also I used this LB script:

```
GOTO START
:START
SLEEP 500
PUSHKEY 57
SLEEP 100
PUSHKEY 13
SLEEP 500
```

**GOTO START**

It does 99 pots, when i try to do 100 it press 1100, so i guess change it if it works for you.  
Just keep clicking the pot and it will add 99 then enter, then stop the script when u hit max pots. then sell manually.  
Idk, fastest way for me.

Your ban could be due to using a bot, lol.

**hichewwoo**

03-02-2011, 12:41 PM

A bot that simply presses keys like a human does?

Highly doubt it.

Would this work just using packets, logging the packets and then sending them on a timed delay? Rather than clicking all the time

Already tried. Spamming these packets without blocking any recieved packet = game crash.

Not that it matters anymore, **nexon** has just shut down MS right now.

**kailoa**

03-02-2011, 01:53 PM

It's an easy fix regarding mesos, jus change the prices the same as the sale to fix but re: rollback i'm okay i guess better then getting banned accounts for selling pots manually.

**RickandRoll**

03-02-2011, 03:17 PM

Knew this would happen.

**Seiya**

03-02-2011, 03:22 PM

i dont think they will bann people.. mainly rollback cuz many ppl didntt see it wrong and were doing it manually lol pot stores where full of people! LOL LOL and well many legits would get banned for nexon's mistake i hope there is a rollback if not fked up economy!! =/

**Monoxide**

03-02-2011, 04:20 PM

Loi, don't worry guys we will get compensated with more 2x events!!

It's always something new with **Nexon**, either people will find a glitch or they'll have a glitch. I can't help but think that this was too good to be true, that and the 2x drop. Sucks that I'll be losing some mesos from botting, oh well.

**khenlol**

03-02-2011, 04:35 PM

Don't worry about missing this one. :) Guaranteed rollback to how it was at s/c.

There's no reason not to do a rollback, this is worse than the meso guard exploit.

**EmeCorp** 03-02-2011, 07:57 PM

I think **nexon** is messing with hackers.. by making a glitch like this everyone will do it including the legits.. In the end.. more damage on hackers that cant farm =p.. hahahaha

**s0ra** 03-02-2011, 08:00 PM

I missed this. :/

By the way, the exploit is:

- 1) Kill monsters.
- 2) Loot mesos.

**\*\* Update! \*\*** The unscheduled server maintenance will be completed at 7 PM Pacific (10 PM Eastern). Unfortunately the issue with the potion/food NPC adversely affected the economy, so we were forced to roll back to 12AM this morning. Cash Shop items will be extended by 24 hours. If you made a purchase in the Cash Shop, the appropriate amount of Nx and Maple Points will be refunded. Well **nexon** has really pissed me off this time. I was on my shadower which is 100% legit except I do use simple hacks like PIC typer, instant drop or what not (These DO NOT autoban!). But heres the problem somehow I got banned for 1 month I was just at the Maple tree thing then i decide to go take one of my maple weapons off my Thunder breaker ( Which is on a different account.) So I log out and go onto the thunder breaker I drop the maple knuckle somewhere in henesys then try going back onto my shadower to pick it up. Then once I enter the Info It said "This ID has already been logged in or is under inspection." Then I think alright it's probably just glltched for a few mins. I wait approximately 30mins to go back on then I am banned for apparently using "Illegal programs." Seriously wtf **nexon**:EmoteHmmm.

If anyone has had a problem somewhat like this did it get resolved or anything? The worst part is that 2x exp is tomorrow -- and apparently GMS only respond during monday~friday at 10am-6pm... Doesn't look like my tickets gonna be answered anytime soon. :EmoteDepressed

Ps. The only reason Im asking this is because none of the hacks autoban as I stated above. I have never had this problem in my 5 years of mapling I am an experienced player but I honestly don't know what the hell I got banned for.

**itsall4you**

04-29-2011, 11:07 PM

it typically takes 2weeks to 6weeks for them to respond to tickets anyway..

Well i gotta say this, **Nexon** bans you when you least expect it.

So true but really just before the 2x event? That's typical of **nexon** though they just love pissing off legit, Seml legit or hackers... Doesn't matter who they find a way to piss them off.

**yingrox**

**Federal Rule of Civil Procedure 45 (c), (d), and (e) (Effective 12/1/07)**

**(c) Protecting a Person Subject to a Subpoena.**

**(1) Avoiding Undue Burden or Expense; Sanctions.** A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The issuing court must enforce this duty and impose an appropriate sanction — which may include lost earnings and reasonable attorney’s fees — on a party or attorney who fails to comply.

**(2) Command to Produce Materials or Permit Inspection.**

**(A) Appearance Not Required.** A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

**(B) Objections.** A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing or sampling any or all of the materials or to inspecting the premises — or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

**(i)** At any time, on notice to the commanded person, the serving party may move the issuing court for an order compelling production or inspection.

**(ii)** These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party’s officer from significant expense resulting from compliance.

**(3) Quashing or Modifying a Subpoena.**

**(A) When Required.** On timely motion, the issuing court must quash or modify a subpoena that:

**(i)** fails to allow a reasonable time to comply;

**(ii)** requires a person who is neither a party nor a party’s officer to travel more than 100 miles from where that person resides, is employed, or regularly transacts business in person — except that, subject to Rule 45(c)(3)(B)(iii), the person may be commanded to attend a trial by traveling from any such place within the state where the trial is held;

**(iii)** requires disclosure of privileged or other protected matter, if no exception or waiver applies; or

**(iv)** subjects a person to undue burden.

**(B) When Permitted.** To protect a person subject to or affected by a subpoena, the issuing court may, on motion, quash or modify the subpoena if it requires:

**(i)** disclosing a trade secret or other confidential research, development, or commercial information;

**(ii)** disclosing an unretained expert’s opinion or information that does not describe specific occurrences in dispute and results from the expert’s study that was not requested by a party; or

**(iii)** a person who is neither a party nor a party’s officer to incur substantial expense to travel more than 100 miles to attend trial.

**(C) Specifying Conditions as an Alternative.** In the circumstances described in Rule 45(c)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

**(i)** shows a substantial need for the testimony or material that

cannot be otherwise met without undue hardship; and

**(ii)** ensures that the subpoenaed person will be reasonably compensated.

**(d) Duties in Responding to a Subpoena.**

**(1) Producing Documents or Electronically Stored Information.** These procedures apply to producing documents or electronically stored information:

**(A) Documents.** A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

**(B) Form for Producing Electronically Stored Information Not Specified.** If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

**(C) Electronically Stored Information Produced in Only One Form.** The person responding need not produce the same electronically stored information in more than one form.

**(D) Inaccessible Electronically Stored Information.** The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

**(2) Claiming Privilege or Protection.**

**(A) Information Withheld.** A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

**(i)** expressly make the claim; and

**(ii)** describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

**(B) Information Produced.** If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information to the court under seal for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

**(e) Contempt.** The issuing court may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena. A nonparty’s failure to obey must be excused if the subpoena purports to require the nonparty to attend or produce at a place outside the limits of Rule 45(c)(3)(A)(ii).

### I. INSTRUCTIONS

1. AlertPay, Inc. is to make available for copying all requested documents that are in its possession, custody, or control, including documents in the possession, custody, or control of its attorneys, accountants, agents, representatives, or any other persons acting on its behalf.
2. AlertPay, Inc. is to produce any Microsoft Excel and/or other database-related files in their native electronic format.
3. Should a claim be made that any subpoenaed document is not subject to discovery by reason of privilege or some other legal protection, please provide a privilege log containing the information required by Fed. R. Civ. P. 26(b)(5).

### II. DEFINITIONS

As used herein, the following terms are intended to have the meanings indicated:

1. The phrase "All Documents" means every Document, whether an original or copy as defined below, and every such Document or writing that can be located through reasonably diligent efforts.
2. "And" means "and/or" and "or" means "and/or." The plural of any word used herein includes the singular, and the singular includes the plural. The masculine gender of any word used herein includes the feminine. The past tense of a verb used herein includes the present tense, and the present tense includes the past tense.
3. The terms "Document" and "Documents" include without limitation the original and all drafts of all written or graphic matter, however produced or reproduced, of any kind or description, and all copies thereof which are different from the original (whether different by interlineation, receipt stamp, notation, indication of copies sent or received, or otherwise), whether printed or recorded electronically or magnetically or reproduced by hand, including documents and electronically stored information as defined by Rule 34(a) of the Federal Rules of Civil Procedure and writings and recordings as defined by Rule 1001(1) of the Federal Rules of Evidence. Examples of "Documents" are: agreements or contracts, communications, correspondence, e-mails, telegrams, cables, memoranda, records, books, summaries of records or personal conversations or interviews, diaries, desk calendars, appointment books, journals, message pads, forecasts, statistical statements, accountants' workpapers, graphs, charts, diagrams, certificates and certifications, tables, indexes, pictures, recordings, sound recordings, images, data or data compilations stored in any medium, tapes, microfilm, charges, accounts, analytical records, minutes or records of meetings, conferences or conversations, reports or summaries of interviews, reports or summaries of investigations, texts or surveys, opinions or reports of consultants, appraisals, reports or summaries of negotiations, advertisements, brochures, pamphlets, circulars, trade letters, press releases, stenographic or handwritten or other notes, projections, working papers, checks front and back, check stubs or receipts, envelopes, invoice vouchers, data processing cards, tapes, backup tapes, disks or any other written, recorded, transcribed, punched, taped, filmed or graphic matter, however produced or

reproduced, and any other document or writing of whatever description, including but not limited to any other information contained in any computer, computer peripheral equipment, computer library, or website, although not yet printed.

4. The term "IP Address" means Internet Protocol address and Internet Protocol number.

5. The term "Description" means the description, subject, title, or other notes associated with a payment or other transaction involving a AlertPay account.

6. The term "Identify" means:

(a) for individuals, to provide the name, Social Security number, date of birth, home addresses, office addresses, mailing addresses, billing addresses, e-mail addresses, telephone numbers, facsimile numbers, credit card account information, bank account information, Media Access Control number, related Internet websites, IP Addresses used by the subscriber with the date, time zone, hour, minute, and second when each IP Address was used, and any and all other identifying information, including, for example, information contained on any activity logs;

(b) for entities, to provide the name, office addresses, mailing addresses, billing addresses, e-mail addresses, telephone numbers, facsimile numbers, credit card account information, bank account information, Media Access Control number, related Internet websites, IP Addresses used by the subscriber with the date, time zone, hour, minute, and second when each IP Address was used, and any and all other identifying information, including, for example, information contained on any activity logs;

(c) for payments, to provide the date, amount, method, and Description of each payment, any and all identifying information for the payor and the payee (including the name, Social Security number, date of birth, home addresses, office addresses, mailing addresses, billing addresses, e-mail addresses, telephone numbers, facsimile numbers, credit card account information, bank account information, related Internet websites, IP Addresses used by the subscriber with the date, time zone, hour, minute, and second when each IP Address was used), and any other information related to each payment maintained by AlertPay, Inc.; and

(d) for money transfers or withdrawals, to provide the date, amount, method, and Description of each transfer or withdrawal, any identifying information for the individual or entity that sent the transfer or made the withdrawal and for the individual or entity that received the transfer or withdrawal (including the names, Social Security numbers, dates of birth, home addresses, office addresses, mailing addresses, billing addresses, e-mail addresses, telephone numbers, facsimile numbers, credit card account information, bank account information, IP Addresses used with the date, time zone, hour, minute, and second when each IP Address was used), and any other information related to each transfer or withdrawal maintained by AlertPay, Inc.
